

Recycling Lists – Updated April 2022

Firstly, thank you so much for recycling with us. You are removing waste from landfill and supporting local charities

It is really important that you only donate the items on the lists. Whilst other items may seem the same they are NOT ACCEPTED by the sponsors.

I appreciate there is a lot of information but it gets easier to remember over time I promise! Following the instructions saves a huge amount of time and allows me to raise more money.

If it feels overwhelming just pick 1 or 2 things to start with and work up over time ☺

In order to be a great recycler please follow the following guide.

1. Please please read the lists carefully.
2. Take special note of what is **NOT** accepted
3. Pre-sort items into types – bread bags are a great way to separate items (i.e 1 bag for biscuit wrappers, 1 bag for sweet wrappers, 1 bag for cheese wrappers etc etc).
4. Please flatten crisp & popcorn packets and line them up. I have to reach minimum weight on the boxes I send and this is easier if the packets are already neat and lined up to transfer to the main box.
5. If you are unsure about anything please email me or check my Facebook page where there are pictures.
